REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

This application is a Continuation of parent application 09/623,013, now US PAT 6,720,022. During prosecution in the '013 application, a restriction was made between the product claims and the method claims, wherein the method claims were indicated as allowable over the prior art of record. The product claims were prosecuted in the '013 application, and the method claims are now presented in the instant case.

Prior to the restriction in the parent application, the closest prior art was previously applied to the method claims, being that of Kringelum, WO 98/38869. Applicant submitted a new declaration clarifying the priority date of the invention, which pre-dated the Kringelum reference. As stated in the parent application, while the prior art is occupied with various embodiments of enzyme-and-fat particles and their methods of making & using, there is no direct teaching or suggestion to produce the instantly-claimed method, prior to the effective filing date of this application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
